When getting admissions into new schools, a major misunderstanding is that students are accepted for the aptitude in the written exams and their ability to think in a critical manner. However, this thinking is considered to be incorrect, because before children are accepted into schools, one major component, that is often ignored is "Public Speaking". Schools look for students who are confident and are able to express themselves in a verbal and a non-verbal manner.

What is Public Speaking?

"Public Speaking" is the process and the act of speaking or giving a lecture to a group of people in a structured and deliberate manner. Public Speaking is intended to inform, influence or entertain a listening audience.

ACE HALL OF HAME-

Congratulations to:
N'Jet for getting accepted
